Dinner...

Another Kati's creation... Tapeña (tah-PAY-nyah) is the ideal complement for an evening of food and conversation among close friends. In Spain, going for tapas (TAH-paz) is the American equivalent of bar hopping with an epicurean twist. At every taberna, tapas (small plates) are served communal style "each person will be armed with a glass of wine and a fork. peña (PAY-nyah) is slang for a group of close friends"

Wines...

Are you ready for this? We will be serving our House-Of-Reds big varietals throughout the evening. "And, for the first time ever, Gianni will be sharing some of his own private collection (vertical tasting) of his older vintages"

Dessert...

Wild Coyote's Port & Late Harvest paired with Gianni's favorite cigars, or dark chocolate dipped strawberries for non cigar fans

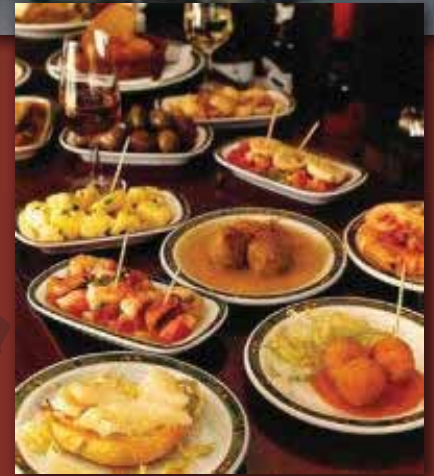

Reservations & Costs...

\$125/person (this will be a private party for Club members only)

Accommodations...

Although our B&B's are booked, our new addition "The House of Zin" is still available for larger parties (details will be on our website shortly with pictures, etc.)
